VOLUME 29 NO. 1–3

SPECIAL ISSUE

HYDROMETALLURGY, THEORY AND PRACTICE PROCEEDINGS OF THE ERNEST PETERS INTERNATIONAL SYMPOSIUM. PART A

W.C. Cooper and D.B. Dreisinger (Editors)
University of British Columbia, Department of Metals and Materials Engineering, Vancouver, B.C., Canada

Contents

Preface vii
Biography of Ernest Peters ix
The leading of sulphide minerals in chloride media
J.E. Dutrizac (Mineral Sciences Laboratories, CANMET, Energy, Mines and Resources Canada, Ottawa, Ont., Canada) 1
Application of mixed potential theory in hydrometallurgy
J. Li, T.-K. Zhong and M.E. Wadsworth (Salt Lake City, UT, USA) 47
Semiconductor electrochemistry and hydrometallurgical dissolution processes
K. Osseo-Asare (University Park, PA, USA) 61
Stoichiometric considerations in multi-component aqueous stability diagrams
M. Wadsley (Clayton, Vic. 3168, Australia) 91
Leaching of fine and pelletised Natal kaolin using sulphuric acid
K.J.R. Ford (Eastern Consolidated Gold Mines, Baberton, South Africa) 109
Solubilization of manganese from ores by heterotrophic micro-organisms
E.G. Baglin, E.G. Noble, D.L. Lampshire and J.A. Eisele (Reno, NY, USA) 131
The use of catalytic ions in bioleaching
A. Ballester, F. González, M.L. Blázquez and J.L. Mier (Madrid, Spain) 145
Bioleaching of sulphides under applied potentials
K.A. Natarajan (Bangalore, India) 161
Acidic dissolution of zinc ferrite
F. Elgersma, G.F. Kamst, G.J. Witkamp and G.M. van Rosmalen (Delft, The Netherlands) 173
Copper-catalyzed thiosulfate leaching of low-grade gold ores
J.W. Langhans Jr., K.P.V. Lei and T.G. Carnahan (NV, USA) 191
Chlorine leaching of gold-bearing sulphide concentrate and its calcine
Li, X., Ke, J., Meng, X., and Li, B., (Beijing, China) 205
Mechanical agitation and aeration in hydrometallurgical reactors
L. Gormely (Vancouver, B.C., Canada) 217
Simulation of ore heap leaching using deterministic models
R.W. Bartlett (Moscow, ID 83843, USA) 231
Computer simulation of the Sherritt nickel–copper matte acid leach process
M.D. Faris (Fort Saskatchewan, Alta., Canada), M.J. Moloney (Rivonia, South Africa) and O.G. Pauw (Fort Saskatchewan, Alta., Canada) 261

The modelling of particulate leaching reactors — the population balance approach
F.K. Crundwell and A.W. Bryson (Wits, South Africa) 275
On the attainment of stable autothermal operation in continuous pressure leaching reactors
V.G. Papangelakis (Toronto, Ont., Canada) and G.P. Demopoulos (Montreal, Que., Canada) 297
Total oxidative leaching of Cu_2S-containing residue at INCO Ltd.'s copper refinery: Laboratory studies on the reaction pathways
I. Grewal, D.B. Dreisinger (Vancouver, B.C., Canada), D. Krueger, P.M. Tyroler (Copper Cliff, Ont., Canada), E. Krause and N.C. Nissen (Mississauga, Ont., Canada) 319
Total oxidative leaching of Cu_2S-containing residue at Inco Ltd.'s copper refinery: the effect of morphology and viscosity of basic copper sulphate on the leaching of cupric sulphide
C. Clément, P.M. Tyroler (Copper Cliff, Ont., Canada), E. Krause and N.C. Nissen (Mississauga, Ont., Canada) 335
The chemistry of the nickel–copper matte leach and its application to process control and optimisation
Z. Hofirek (Rustenburg, South Africa) and D.G.E. Kerfoot (Fort Saskatchewan, Alta., Canada) 357
Mass transfer phenomena associated with the liberation of solid particles or gas bubbles through the concentration boundary layer
H. Majima and Y. Awakura (Sakyo-ku, Kyoto, Japan) 383
Recovery of tellurium from decopperizing leach solution of copper refinery slimes by a fixed bed reactor
T. Shibasaki, K. Abe and H. Takeuchi (Kagawa, Japan) 399
The effect of some trace metal impurities on the electrowinning of zinc from Kidd Creek electrolyte
R.M. Morrison, D.J. MacKinnon (Ottawa, Ont., Canada) and D.A. Uceda, P.E. Warren and J.E. Mouland (Timmins, Ont., Canada) 413
Hydrometallurgical process innovation
E. Peters (Vancouver, B.C., Canada) 431
Application of new hydrometallurgical developments in the Outokumpu HIKO Process
B. Nyman (Pori, Finland), A. Aaltonen (Kokkola, Finland), S.-E. Hultholm and K. Karpale (Pori, Finland) 461
Examining the economics of some pressure oxidation process options
P.G. Mason (Vancouver, B.C., Canada) 479
Autoclave operations at Porgera
J.A. King and D.A. Knight (Vancouver, B.C., Canada) 493
Reagent recovery in chloride hydrometallurgy — some missing links
G. Van Weert and E.M.I. Peek (Delft, The Netherlands) 513
Integrating solvent extraction with the processing of advanced ceramic materials
F.M. Doyle (Berkeley, CA, USA) 527
The technical and economic aspects of producing high-purity cobalt and nickel from superalloy scrap utilizing a double-membrane electrolytic cell
L.D. Redden (Salt Lake City, UT, USA) and J.N. Greaves (Washington, DC, USA) 547
Electrocrystallization — theory and applications
R. Winand (Brussels, Belgium) 567
